on March 26

“Our Communities • Our Jobs” Rally

All over the world, people have been making their voices heard demanding change. Now it's our turn! Join General President Jim Hoffa and thousands of Teamsters in the streets of downtown Los Angeles as we march for jobs and justice, speak truth to power and demand:

- *Communities before corporations*
- *People before profits*
- *Main Street before Wall Street*

We'll march and rally together with other union members, workers fighting for their rights, students and activists from the environmental, faith, civil rights and immigrant rights movements.

It is time to fight back, time to create our own hope and change!
